CAH Quality Inventory and Assessment

The Medicare Beneficiary Quality Improvement Project is an activity of the Health Resources and Services Administration's Federal Office of Rural Health Policy. The goal of MBQIP is to improve the quality of care provided in Critical Access Hospitals. Participation in MBQIP is required as part of the Medicare Flexibility Grant and Small Hospital Improvement Program.

Join us for a Quality Corner Call at noon on May 19, when we share and review the state and national results of the CAH Quality Inventory and Assessment as you compare them to your own results. Topics to be discussed include:

- CAH Quality Inventory and Assessment results;
- What future resources hospitals need to impact results; and
