

Quality Corner Call + Survey Readiness Part 2 of 3

Apr. 23, 2026
Noon to 1:00 p.m.
Webinar Connection Fee: No Charge

QAPI ESSENTIALS

Is your QAPI program ready for survey scrutiny? As a Condition of Participation, all hospitals must develop, implement and maintain an effective, ongoing, hospital-wide, data-driven QAPI program. Do your improvement efforts clearly demonstrate how your hospital uses data to drive safer, more reliable care? As part of the Kansas Hospital Association's three session survey readiness series, this webinar focuses on strengthening your Quality Assessment and Performance Improvement program and preparing for how it will be evaluated during the survey process.

This session is designed for hospital leaders, quality professionals and teams responsible for QAPI reporting and documentation. Susan Runyan, Healthworks Consultant, will combine regulatory expectations with real world hospital experience to help participants build a QAPI program that is both compliant and meaningful.

In this webinar she will:

- Review common QAPI challenges identified during recent surveys;
- Clarify federal and state QAPI requirements;
- Explain what surveyors look for when reviewing QAPI plans, minutes, data and improvement projects; and
- Provide practical steps hospitals can take to demonstrate an effective, sustainable QAPI program.
