

REVENUE CYCLE WEBINAR

Feb. 19, 2026

Noon to 1:30 p.m.

Webinar Connection Fee: No Charge

Strategies for Inpatient Status and Post-Acute Placement Success

It is no longer as simple as providing a service and receiving payment for that service. A multitude of factors impact a hospital's ability to receive the correct payment for care provided to a patient. Utilization review and case management play an increasingly critical role in the hospital's revenue cycle by advocating for patients' proper status and post-hospital placement authorizations. This session will equip those team members with knowledge of the rules for inpatient status and prior authorizations for three common plan types: Medicare Advantage, Medicaid Managed Care and exchange plans. Equipped with knowledge of legal requirements, Richelle Marting will discuss strategies that increase approvals and provide strategies to leverage multiple internal stakeholders in a process of payer accountability.

Marting is an attorney registered health information administrator and certified coder who focuses on health care coding, billing and reimbursement issues.
