2024 – 2025 Funding Priorities

The Federal Office of Rural Health Policy has identified the following two priorities for using SHIP funds:

- Meeting MBQIP Requirements (includes HCAHPS)
- ICD-11 Coding Readiness and/or Implementation (you must spend money in this area)

Once these priorities have been met, your hospital may select other activities listed on the SHIP Purchasing Menu

We will provide ICD-11 Training to help you meet this requirement

OP Reporting Demographic Changes

Section 2 - Alphabetical Data Element List and Data Dictionary

Impacts: Alphabetical Data Dictionary

Rationale: Three data elements (*Sex Assigned at Birth*, *Sexual Orientation*, and *Gender Identity*) are being updated or added in order to bring CMS closer to alignment with best practices and the United States Core Data for Interoperability without requiring additional data collection. The *Sex Assigned at Birth* element (will be) required, while the *Gender Identity* and *Sexual Orientation* elements are voluntary. **This update is effective beginning with July 1, 2024 encounters.** See Data Dictionary for the data element details.

Description of Change(s):

Add: new data elements:

Gender Identity

Sexual Orientation

Change: Sex data element to:

Sex Assigned at Birth

Section 5 - Hospital Outpatient Quality Measure Data Transmission

Impacts: Hospital Outpatient Clinical Data File Layout

Rationale: This update is to include an additional Hospital Outpatient Clinical Data File Layout to accommodate changes effective with July 1, 2024, through December 31, 2024 encounters (Q3 – Q4 2024).

Description of Change(s):

Add: Hospital Outpatient Clinical Data File Layout (Q3 – Q4 2024 reporting period)

Section 6 – Tools and Resources

Impacts: OP-29: Appropriate Follow-up Interval for Normal Colonoscopy in Average Risk Patients

OP Reporting Demographic Changes

The [Hospital Outpatient Quality Reporting Program specifications](#) includes a change in Sex data elements that will impact future OP-18 data submission. The Sex data element will be replaced by the Sex Assigned at Birth data element beginning with **July 1, 2024, encounters**. This will impact OP-18 data abstractions. The Sex data element will continue to be used for abstractions for encounter dates up to June 30, 2024.

The numeric allowable values will be changed for encounters beginning July 1, 2024. This will impact your February 1, 2025, data submission which will need to contain this change from the Sex data element to the Sex Assigned at Birth data element. You will continue to report the Sex data elements for OP-18 for the August 1, 2024, data submission (Q1 2024 encounters) and the November 1, 2024, data submission (Q2 2024 encounters). For CART users you will continue to report as you have using version CART version 1.24.0 until further notice.

32

OP Reporting Demographic Changes

What can hospitals do to prepare for this change?

- Inform EMR vendors and IT teams of this change beginning with July 1, 2024, encounters. It is important to align data elements with these changes for ease of abstraction of these encounters for the February 1, 2025, submission.
- CART users can continue using CART version 1.24.0 for submissions of Q1 2024 encounters and Q2 2024 encounters. The RQITA team anticipates a new version of CART will be released for encounters starting July 1, 2024, to use for submission due February 1, 2025.
- Connect with hospital leadership and clinical teams to ensure this information is captured for patient encounters starting July 1, 2024.
- Review the measure specifications. Page 2-48 of the [Hospital Outpatient Measure Specifications](#) version 17.0a contains detailed information regarding the changes.
- Sign up for the CART listserv to be the first to know about changes <https://qualitynet.cms.gov/listserv-signup>.

NEW Kansas to FORHP Reporting Change

- The Federal Office of Rural Health Policy has announced a change to the Kansas annual report
- Every MISSED reporting deadline will have to be 'explained' for each facility
 - If 3Q24 OP-18 is 'N/A' – instead of just Susan R reaching out to ensure a process is in place to avoid missing future deadlines, Kansas will have to 'dig deeper' and report to FORHP what happened that contributed to the omission
 - More details to come
