

Quality Corner Call

February 20, 2019

Noon - 1 p.m.

Quality Health Indicators

When it comes to quality data, how you display it and work with it has much to do with actually making improvements. We have a great resource for quality data reporting in QHi, Quality Health Indicators. Have you developed a report to send to your board members every month? Do you have too many unutilized measures clogging up access to the measures you are reporting? Do you struggle with knowing how to get data out of QHi to inform staff and spread the word so active quality improvement projects can be going on for particular measures?

This will be a great overview of QHi whether you are new to the website or need a quick refresher on the subject. Join us for a Quality Corner Call on February 20, when Sally Othmer, Senior Director Data and Quality Reporting for the Kansas Hospital Association, will help you understand how to:

- Select and remove measures
- Run and schedule customized/comparative reports
- Utilize import data options
- Identify 'favorite' measures to facilitate data entry

Quality Corner Calls are offered by the Kansas Department of Health and Environment and the Kansas Hospital Education and Research Foundation and focus on quality improvement activities consistent with the Medicare Rural Hospital Flexibility Grant Program.

**Webinar Connection Fee:
No Charge**

Questions: Contact KHERF at (785) 233-7436 or email scunningham@kha-net.org.
