

Project Opportunity

Efficient Revenue Cycle Processes

July - November 2019

Reviewing internal processes and creating efficiencies is a recommended strategy to prepare for value based purchasing. KRHOP is pleased to announce an opportunity for Critical Access Hospitals to participate in a project designed to improve the efficiency of revenue cycle processes with the application of Lean techniques and tools.

Hospitals participating in this project will:

- Reduce the rate of claims denials;
- Improve cash flow;
- Improve patient satisfaction; and
- Improve employee engagement/satisfaction.

We are looking for 6 to 9 hospitals to be part of this project. The project will kick off on July 30 and conclude in November. Participation includes access to technical experts in Lean, project management staff to help identify opportunities for improvement and a platform for you to share/brainstorm with peers.
