Hospital Quality Reporting: My Tasks

CMS is making improvements to QualityNet based on user feedback. We are creating a new interface that improves the way you submit, review and track the status of data. Continue using this My Tasks page to enter web-based data, view submission and feedback reports, and other tasks available here.

A structural measure reflects the environment in which providers care for patients. Structural measures assess characteristics linked to the capacity of the provider to deliver quality healthcare. CMS believes requesting structural measures information will encourage facilities to increase the use of tools, ultimately improving the quality of care provided to Medicare beneficiaries.

Web-Based measures assess characteristics linked to the capacity of the provider to deliver quality healthcare. CMS believes reporting Web-Based measures information will encourage facilities to improve the quality of care provided to all patients.

The Centers for Medicare & Medicaid Services (CMS) Promoting Interoperability Program promotes the meaningful use of certified electronic health record technology (CEHRT) to support patient engagement and the electronic exchange of health information. The program highlights CMS's commitment to interoperability, patient access to health information to make fully informed health care decisions, and reducing provider burden.

The DACA is an annual requirement for providers participating in the Hospital IQR, IPFQR, and PCHQR Programs to electronically acknowledge that the data submitted to these programs by or on behalf of the providers are accurate and complete to the best of their knowledge.

Outpatient Web-Based Measures

Web-Based measures assess characteristics linked to the capacity of the provider to deliver quality healthcare. CMS believes reporting Web-Based measures information will encourage facilities to improve the quality of care provided to all patients.

NOTE: Proceeding with data submission will change a Provider's status to **Participating** if they are currently **Not Participating** or **Withdrawn**.
