

# Quality Corner Call

## April 17, 2020

### Noon - 1 p.m.

## What Does This Report Say About Us?

The Medicare Beneficiary Quality Improvement Program provides an opportunity for hospitals to look at your own data, compare your results against other Critical Access Hospital and partner with other hospitals around quality improvement initiatives to improve outcomes and provide the highest quality care to each and every one of your patients. Demonstrating value by providing cost efficient, quality care is the future of health care reimbursement. MBQIP takes a proactive approach to ensure CAHs are well-prepared to meet future quality requirements.

The April 17 Quality Corner Call will focus on interpretation and use of the MBQIP Hospital Data Reports. Susan Runyan, consultant for KHERF, will discuss:

- Three separate MBQIP Hospital Data Reports:
  - Patient Safety and Inpatient/Outpatient Care Quality Report
  - Care Transitions (EDTC) Quality Report
  - Patient Experience (HCAHPS) Quality Report
- Interpreting the reports to support improvement;
- Ideas on how to share this information with staff; and
- Resources available for best practices on MBQIP measures and quality improvement strategies.
