SHIP

The Kansas Small Hospital Improvement Program (SHIP) is a federal-supported program to support small rural hospitals activities related to quality improvement and investments towards meaningful use of health information technology.

The Kansas SHIP is managed by the by State Office of Rural Health within the Bureau of Community Health Systems (BCHS) at the Kansas Department of Health and Environment. KDHE has contracted with Healthworks to administer this program. The SHIP is funded by the Federal Office of Rural Health Policy in the Health Resources and Services Administration.

To:

Alphanumeric

Change Occurs from:

1

To:

1 – 5

Allowable Values

Change from:

M = Male

F = Female

U = Unknown

To:

Select all that apply:

1. Male
2. Assigned/Designated Male at Birth
3. Female
4. Assigned/Designated Female at Birth
5. LGBTQ
6. Unknown

Notes for Abstraction

Change to:

- Select any of the values that are applicable. The data element and values encompass both the patient's current gender identity and one assigned at birth.
- Consider the sex to be unable to be determined and select "Unknown" if the patient refuses to provide their sexual orientation and/or gender identity. If "Unknown" is selected, then no other value should be selected.

CMS Data Element Change

Starting with **July 1, 2023 encounters**, the Centers for Medicare and Medicaid Services (CMS) measure data collection question is changing from "What was the patient's sex on arrival" to "What is the patient's sexual orientation and/or gender identity?" The data element is being updated to be able to capture additional information to help evaluate health equity.

Refer to the [CMS Hospital Outpatient Quality Reporting Specifications Manual](#) and Release Notes Version 16.0a for further rationale on the change and the Data Dictionary Section for the specific data element (Sex) instructions.
