Population & Sampling

ED Throughput (OP-18) – optional

Outpatient Quality Reporting

ED Throughput (OP-18) (arrival to departure time)

OP CART Change

Format

Change Type from:

Character

To:

Alphanumeric

Change Occurs from:

1

To:

1 – 5

Allowable Values

Change from:

M = Male

F = Female

U = Unknown

To:

Select all that apply:

1. Male
2. Assigned/Designated Male at Birth
3. Female
4. Assigned/Designated Female at Birth
5. LGBTQ
6. Unknown

Notes for Abstraction

Change to:

- Select any of the values that are applicable. The data element and values encompass both the patient's current gender identity and one assigned at birth.
- Consider the sex to be unable to be determined and select "Unknown" if the patient refuses to provide their sexual orientation and/or gender identity. If "Unknown" is selected, then no other value should be selected.

CMS Data Element Change

Starting with **July 1, 2023 encounters**, the Centers for Medicare and Medicaid Services (CMS) measure data collection question is changing from **"What was the patient's sex on arrival"** to **"What is the patient's sexual orientation and/or gender identity?"** The data element is being updated to be able to capture additional information to help evaluate health equity.

Refer to the [CMS Hospital Outpatient Quality Reporting Specifications Manual](#) and Release Notes Version 16.0a for further rationale on the change and the Data Dictionary Section for the specific data element (Sex) instructions.
