

KANSAS CRITICAL ACCESS HOSPITALS

MEASURE THE SUCCESS OF YOUR SWING BED PROGRAM

Swing bed programs are a population and revenue source for Critical Access Hospitals, but there are limited options to get an assessment of the care received.

BENEFITS TO KANSAS CRITICAL ACCESS HOSPITALS:

- Short patient survey – 14 rural relevant questions that involve multiple departments
- Survey administered via tablet or paper for data collection at dismissal
- Results auto upload to web portal
- Reports and benchmarking available on portal
- Monthly huddle calls w/ other Kansas participating hospitals

KANSAS CRITICAL ACCESS HOSPITALS CAN EXPECT:

- High response rate – 11 pilot hospitals got a 70 to 90 percent completion rate
- Feedback helping with quality improvement in multiple departments
- Benchmarking against similar size hospitals in Kansas and other states
- Sharing of best practices to improve your swing bed program
